RECYCLEPROX *MOBI*

Gives you mobility on a site as well as quicker transaction turnaround time.

LARIAT
TECHNOLOGIES (PTY) LTD

Developed by Lariat Technologies (PTY) ltd.

2023

BENEFITS

Lariat has taken a massive leap in the utilisation of the latest technology on the market, replacing desktop computers with the mobility of Android Tablets. Like the Touchkiosk, that was one of our trademark products, has now been replaced by a standard Android Tablet. Bosting with the same functionality as his predecessor but at a fraction of the cost.

SOFTWARE FEATURE LIST

This quick and easy to learn Lariat feature is available for all **RecycleProX** customers and includes features like:

- Multiple Scale Transactions.
- Weighbridge Transactions.
- Product Grading.
- Baling and Tagging.
- Stock Take.
- Quick Android Tablet Replacement.
- Easy Transaction Reprint Tab.
- Easy-to-use Interface.
- Wall mounted Lockable Tablet Bracket (*Optional*).
- Replaces current computers at the small scale and weighbridge offices.
- Access Control

HOW IT WORKS

The full atomisation of the tablet is done with the following inexpensive hardware add-ons:

- Tablets are connected directly to the database via WiFi access points in the yard.
- Live scale readings, from more than 4 different scales, directly on the tablet using COM-TO-LAN units.
- High Definitions snapshots of every product that is weighed in using IP Cameras.
- Signing of second goods act, Purchase and VAT264 Form directly on the tablet simply by using your finger.
- Slip and weighbridge note printout done directly to an IP slip printer.
- Adding new casual customers to database, complete with ID snapshot, using tablet camera.

Electronic equipment is mounted into a robust and tamperproof casing
